CONFERENCE 2018

SESSION SPOTLIGHT:

How to Calm a Sensitive Nervous System with Pain Neuroscience Education

SUMMARY:

Pain neuroscience education can be used as a powerful tool in calming the central and peripheral nervous system, helping patients more readily engage in physical treatments. Attendees of this breakout session will develop a step-by-step, immediately clinically-applicable "how to" on teaching people about pain and calming a hypervigilant nervous system.

Congrats to Chris!

Chris Juneau, PT, DPT, SCS, CSCS, was recently promoted to Director of Research for KinetaCore. Chris has been with KinetaCore as an Assistant Instructor since 2015 and will continue instructing in his new role. He is a DPT with Memorial Hermann Ironman Sports Medicine in Houston with a background in sports medicine and sports performance. Next summer, Chris will be speaking at the Align Conference in Denver on Neuropathy in Sports Medicine: Functional Dry Needling®. Don't miss this opportunity to learn from KinetaCore's new Director of Research. Congratulations Chris!
